Summer School for Teachers

(PRELIMINARY BULLETIN)

The Summer School for Teachers at Delaware College has been established by the Board of Trustees in accordance with the provisions of an Act passed by the General Assembly of Delaware at the session recently held. The Board conjointly with the State Board of Education has arranged courses of study to meet the varying demands of the teachers of our schools for preparation for their work.

The School will begin Monday, June 23, and will continue five weeks, closing Friday, July 25. Monday will be registration day and everybody should be present at that time in order to be ready to begin work promptly on Tuesday morning. Recitations will be held every day except Saturday. Patriotic exercises will form part of the programme of Independence Day.

All persons who are now teaching or who will give satisfactory assurance to the Director of the School that they intend to teach in the free public schools of this state, shall be admitted into this School, the tuition of which shall be free. All other persons who may wish to take any of the courses offered by the School will be charged the nominal fee of $5.00 for the term of five weeks. There will be no examinations for admission. Students of either sex will be admitted to such courses as they may be found qualified to pursue with advantage.

INSTRUCTION

The courses will be made to suit the needs of the teachers. Elementary instruction in the fundamental school subjects, including methods of teaching, will be given to the teachers of the primary grades. More advanced work will be given to the teachers of higher grades.

A fine opportunity of receiving instruction in Agriculture is

offered by this School. Since the State Board of Education has added this subject to the list of studies required in the schools of the state, it is necessary for every teacher in Delaware to become familiar with the fundamental knowledge of farm life and rural home-making. Special stress will be put upon the methods of instruction.

In brief, in all work Delaware College seeks the widest usefulness to the teachers and is ready to organize classes to meet their needs.

EXPENSES

Tuition is free to all Delaware teachers. To others a nominal charge of $5.00 will be made. Board may be obtained at the College at the cost of food and service; it will not cost more than $3.50 a week. Furnished rooms may be rented at convenient distances from the College at 75 cents or $1.00 a week. The actual living expenses for the five weeks, beginning June 23 and lasting until July 25, 1913, need not exceed $23.00 or $24.00, and may be made less than $20. In some of the houses where rooms may be rented, it will be necessary for the students to supply sheets, spreads, and towels.

BOOKS AND MATERIALS

Teachers will bring with them the text-books that they may have. Instruction will be given by the topical method, consequently any text-books may be used.

Another bulletin, giving courses of study and teaching staff, will follow this in about a week. For bulletins and other information address

Geo. A. Harter, *Director of Summer School,*
President of Delaware College.
